PROFESSIONAL SUMMARY

M.Sc. Microbiology graduate with an Advanced Diploma in Bioinformatics and hands-on experience in laboratory analysis, NGS data processing, and healthcare data documentation. Skilled in Python, SQL, Excel, and bioinformatics tools for data analysis and reporting. Familiar with GMP/GLP practices and quality documentation. Seeking entry-level roles in healthcare, bioinformatics, or life sciences where I can apply my analytical and laboratory skills.

TECHNICAL AND DOMAIN SKILLS

Analytical Tools: Python, R Programming, SQL, Advanced Excel, Power BI, MS Office Suite.
Bioinformatics: QIIME2, BLAST, Nextflow, AutoDock Vina, PyMOL, Linux Basics.
Data and Research: NGS Data Analysis, Molecular Docking, Homology Modeling, Pipeline Development, Basic ETL.
Laboratory: Microbial Culture and Isolation, DNA/RNA Extraction, PCR, ELISA, Gram Staining, Sample Handling.
Compliance and Documentation: GMP/GLP Awareness, Research Documentation, SOPs, Data Interpretation, Quality Practices.
Currently Learning: AI Fundamentals, Tableau, Machine Learning Concepts.

EXPERIENCE

Graduate Research Associate | Rajiv Gandhi Institute of IT and Biotechnology (Bharati Vidyapeeth), Pune **Dec 2024 to May 2025**

- Isolated and screened probiotic bacteria from Indian Grey Wolf scat samples across 3 field sites using serial dilutions, MRS selective plating, Gram staining, and GLP-compliant multi-parameter biochemical assays (haemolysis, bile/pH/salt tolerance) per Bergey's Manual.
- Identified Enterococcus faecium strains with confirmed probiotic potential via 16S rRNA sequencing-based taxonomic classification, contributing to wildlife conservation genomics research.
- Developed a Python + Biopython bioinformatics pipeline for 16S rRNA quality control, alpha diversity profiling, BLAST-like pairwise alignment against 5 probiotic reference sequences, and NJ phylogenetic tree generation from a 20x20 distance matrix, processing 20 OTUs across 3 sampling sites with automated HTML report output.

AI Intern | SMARTED Innovations (Skill India Certified) **May 2026**

- Completed training in AI fundamentals including data preprocessing, supervised learning, and model evaluation.
- Applied basic machine learning techniques on real-world datasets using Python.

KEY PROJECTS

Pharma QC Data ETL and Batch Release Pipeline | Python, SQL, GMP/21 CFR Part 11

- Automated pharmaceutical QC management system: CSV ingestion, data validation, GMP-compliant pass/fail logic against USP specifications, and HTML batch release report generation.
- Built an automated ETL pipeline for pharmaceutical QC with audit-trail-oriented documentation and batch release reporting aligned with GxP quality practices.

EDUCATION

Advanced Diploma in Bioinformatics 82.8% Bharati Vidyapeeth, Pune	2024 to 2025
M.Sc. Microbiology 78.9% Bharati Vidyapeeth Deemed University, Pune	2023 to 2025
B.Sc. Microbiology 83.1% S.R.T.M. University, Nanded	2019 to 2021

CERTIFICATIONS

Artificial Intelligence Internship | SMARTED Innovations (Skill India) | 2026
Structural Analysis in Bioinformatics | IIT Kharagpur | 2024
Techniques in Pharmaceutical Microbiology | BioEduXperts | 2024

LANGUAGES

English (Professional) | Hindi (Fluent) | Marathi (Native) | German (Basic)
